Pan-International Industrial Corp. October 2026 Revenue Briefing

Pan-International Industrial Corp. (TWSE: 2328) today announced its unaudited consolidated revenue for October 2026, totaling NT$1.996 billion. This figure represents a month-on-month (MoM) decrease of 18.22% and a year-on-year (YoY) increase of 27.82%. Cumulative consolidated revenue for January through October 2026 reached NT$18.282 billion, reflecting a 0.66% decline compared to the same period in 2025.

Affected by softening momentum in automotive products, delivery delays of critical materials, and the passing of peak shipment seasons for certain component products, revenue for October declined month-over-month. However, compared to the relatively low base of the same period last year, October posted solid year-over-year growth. Meanwhile, cumulative year-over-year revenue has now reached parity with last year's level, driven by an uptick in shipments and the continued narrowing of year-to-date declines. Looking ahead to the final two months of the year, the Company will actively execute shipment schedules for AI server- and robotics-related products while securing new device orders from both consumer and automotive clients to achieve its full-year growth target.

Unaudited Consolidated Revenue (M NTD)	2026	MoM%	2025	YoY%
Jan.	1,539	-13.61%	1,802	-14.57%
Feb.	1,185	-23.03%	1,804	-34.32%
Mar.	1,509	27.31%	2,109	-28.45%
Apr.	1,736	15.05%	2,080	-16.55%
May	1,702	-1.96%	1,684	1.03%
Jun.	1,959	15.11%	1,973	-0.74%
Jul.	2,050	4.62%	1,761	16.37%
Aug.	2,166	5.68%	1,810	19.67%
Sep.	2,441	12.68%	1,817	34.30%
Oct.	1,996	-18.22%	1,562	27.82%
Nov.			1,608	
Dec.			1,782	
Total	18,282	-	18,403	-0.66%

To navigate current market challenges, the company is actively pursuing orders in the AI server segment to bolster revenue growth. Concurrently, our core strategic objective remains profitability optimization. We are committed to penetrating the high-end product lines of existing clients and increasing the revenue contribution from high-margin product categories. Furthermore, we are strategically positioning ourselves in the humanoid robotics market.
